

## Finite triangle integrals

The general triangle integral is given in ref. [1]. Nevertheless it may be useful to have expressions for simple cases.

1.  $I_3^{\{D=4\}}(m^2, m^2, s_{12}; 0, m^2, 0)$

2.  $I_3^{\{D=4\}}(0, m^2, s_{13}; m^2, m^2, 0)$

3.  $I_3^{\{D=4\}}(0, 0, s; m^2, m^2, m^2)$
